

Stocked in Stainless!

Hair Pin Cotter

A spring-type cotter made to be reusable. Pivot Point hair pin coppers are made exclusively to our exact specifications. Designed to be strong and secure, these fasteners are economical and widely used. It is important to select the correct size because misuse causes fatigue and will result in loss of the fastener. Consult our use chart below and ask us about proper hole size. We will be glad to help.

Made from hard drawn MB spring wire, zinc plated and baked or stainless type 302.
